10 (10/12-10/18)	4	5	6	1	2	3

* Designates team for special detail each week.

MONTANA HIGHWAY PATROL

1969 Training School

REGULATIONS

Rule 1. SCHOOL OFFICIALS:

The training officer will be in charge of the school and will coordinate training activities with the camp commander and instructors.

Rule 2. NOTEBOOKS:

All trainees will be required to take complete notes on all subjects unless the instructor specifies differently. These notes must be plainly written in ink or typewritten and placed in a permanent binder. These notebooks will be periodically graded and each student will be held accountable for the completeness and accuracy of his notes.

Rule 3. GRADES AND EXAMINATIONS:

All trainees will be expected to perform efficiently and satisfactorily in all of their activities. Examinations will be given frequently. Any trainee who fails to do satisfactory work may be discharged from the school or may not be accepted for Patrol employment.

Rule 4. AUTOMOBILES AT TRAINING SCHOOL:

Students who have automobiles at the training school must park them in the place designated by school officials. Private vehicles shall not be operated except during off duty hours, or unless permission is specifically granted by a school official or instructor.

Rule 5. LIVING QUARTERS AT TRAINING SCHOOL:

Beds will be made up in the following manner:

(a) Blankets will be spread over the bed and top sheet and blanket will be turned down "white collar" fashion.

(b) Extra blankets will be folded in three folds with the folded edge toward the foot of the bed under the pillow.

(c) All beds will be marked with the name of the occupant.

(d) All shoes will be kept in a neat and uniform line underneath the bed. Shoes will be shined at all times, except field shoes or boots.

(e) Beds will be made up as indicated above. Sleeping quarters will be subject to inspections at all times.

Rule 6. BULLETIN BOARD:

Trainees will watch the bulletin board for details and orders that will be posted for their information.

Rule 7. CARE OF CLOTHING AND EQUIPMENT:

Trainees must be neat and clean at all times. Arrangements have been made for pickup and delivery laundry services. Sheets and pillow cases will be picked up every Friday morning for laundry. All equipment will be kept clean at all times except when the nature of the duty being performed necessitates the soiling of clothing or equipment.

Rule 8. COURTESY IN THE MESS HALL:

Loud and boisterous talking in the mess hall will not be tolerated.

Rule 9. INSPECTIONS AND FORMATIONS:

An inspection of classrooms, mess hall, barrack and washroom will be made daily by the school camp commander. Inspections of trainees may be made by school officials at any time considered necessary.

Rule 10. ABSENCE FROM CAMP:

Trainees will leave camp only with permission of the camp commander. In order to facilitate their prompt location in case of emergency, trainees will sign out when leaving and information as to how they may be contacted while away. Trainees must return from "Off Duty" by 10:30 P.M. on last day of "Off Duty."

Rule 11. PROMPTNESS:

Promptness in carrying out instructions, in reporting to classes, for meals and all other formations, will be required. A schedule of daily classes will be furnished to trainee personnel for his guidance.

Rule 12. PERSONAL APPEARANCE:

Trainees will be required to bathe at least once each day and must be clean shaven at all times. Hair will be kept neatly trimmed. Clothing will be kept as neatly pressed as the nature of duties permit.

Rule 13. RESIGNATION:

Should it be necessary for any student to consider offering his resignation, such information as will be necessary to effect this will be furnished by the camp commander.

Rule 14. SMOKING WHILE ON DUTY:

Smoking will be permitted during the rest periods, but during the time allotted for formations outside or inside, smoking will not be permitted. Due to fire hazard, smoking in bed is forbidden at all times. All cigarette butts will be thrown in containers on the grounds and in quarters.

Rule 15. CONDUCT:

Each trainee will be required, at all times, to conduct himself as a gentleman, to perform all duties in a thorough and precise manner and to carry out, without hesitation, all orders, commands and instructions given by anyone duly authorized to issue such orders, commands or instructions.

Rule 16. DISCIPLINE AND OBEDIENCE:

One mark of discipline is obedience. To be effective, obedience must be intelligent. As such, it is the foundation on which all efficiency is built. Obedience must be prompt and unquestioning. When a person in this department receives a lawful order, it is not for him to consider whether the order is a lawful one or not, or whether it would have been better if such an order had never been given or whether the duty ordered might have been better performed by someone else, or at some other time or in some other manner; his duty is, first, to understand just what the order requires, and second, to proceed at once or as ordered to carry it out to the best of his ability. When by continued training and subordination, obedience becomes second nature and a habit, the individual may be said to have acquired discipline.

Rule 17. ILLNESS:

In the event of illness or injury, the individual will be required to report immediately to the camp commander that proper medical care may be provided.

Rule 18. PROFANITY:

Unnecessary profane, obscene or vulgar language will not be tolerated. Such language reflects the character of the individual and is an admission of weakness and inability to express himself properly.

Rule 19. GAMBLING - INTOXICANTS:

Gambling of any form is absolutely forbidden. The possession and use of intoxicants or narcotics at the training school are also expressly and absolutely forbidden. Violation of this rule will result in immediate expulsion.

Rule 20. ROOMS:

The sleeping quarters, mess hall, classroom and washroom will be kept immaculate at all times.

Rule 21. LIGHTS OUT AND BED CHECK:

At 10:30 P.M. each night, while trainees are in training school, a signal will be given for lights out. This means that each and every trainee will be prepared for retirement for the night and this rule will be strictly enforced. A bed check may be made at the signal of lights out, and at other times during the night by the camp commander.

Rule 22. REVEILLE:

Students will rise each morning at 5:45 A.M. At 6:00 A.M. all students, unless excused, will be in formation for roll call and calisthenics.

Rule 23. TELEPHONE:

Trainees will not use the telephone for other than official calls. When not on duty, students may make calls after receiving proper permission. Students will not be called to the telephone while attending class except in cases of extreme emergency. Students will inform their friends and relatives of this rule.

Rule 24. CARE OF TRAINEE FACILITIES:

The buildings and equipment used by the training school are the property of the National Guard. Each trainee is responsible for taking the best care of this equipment and facilities.
